ABOUT ME

MY GOALS

I am a design student currently enrolled in the New Media Arts program at Kapiolani Community College intrested in new opportunities to further my design experience.

EXPERIENCE

I took the opportunity to intern at WasIsWas, under Bradley Shin during my fall semester while enrolled at Kapiolani Community College. During this time, I gained valuable experience in transforming my ideas into designs that effectively communicate and consist of meaningful symbolism. Bradley's mentorship helped me refine my skills in conceptualization and the design process, with focus on telling a compelling story through deliberate design. This opportunity allowed me to grow creatively and develop the expertise needed to create impactful, thoughtful, and practical designs.
